

MEMBERS NOTICE 12-9-2020

TELOS CLOSING

It is with our deepest regret and a heavy heart that we must announce the Closing of the TELOS Fitness Center!

After 18+ years of operation we will be closing our doors at the end of today and join the 30% of the Health Clubs and Fitness Centers that have also had to close this year.

With the challenges this Pandemic and associated economic disaster has created for most all businesses alike, we simply could not continue to operate TELOS at this location. We apologize that we were not able to provide more advanced notice due to several factors outside our control.

For those of you who have locker rentals with personal belongings therein, you may try to come by today to clean your locker out.

We will be bagging, tagging, and documenting any personal property left behind and will provide arrangements for you to retrieve at a later time.

We are also in the process of obtaining complimentary memberships for our active members at other facilities to finish out the remainder of December. We will not be billing for any fitness services that were not already provided, nor of course, will be billing anyone for January.

Lastly, I want to recognize all our staff who have remained dedicated to our Mission of, *“Providing Fitness Services of the Highest Quality”*, and our Vision of, *“Redefining the Fitness Process & Experience!”*

It Has Been Our Absolute Honor and Pleasure To Serve You!

TEAM TELOS!
